The lights marked with this symbol can be ordered optionally with an integrated dimmer (Casambi module) which permits the light to be dimmed via the normal switch and/or via an App (Casambi) by means of smartphone or tablet.

For lights marked with this symbol a dimmer (Casambi module) can be ordered optionally as accessory which permits the light to be dimmed via the normal switch and/or via an App (Casambi) by means of smartphone or tablet.

Depending on the actual installation environment, slight flickering may occur when dimming with the Casambi module in the lowest brightness range. As with the classic flush-mounted dimmers, you should in such case increase the brightness

* Lights with switch module can be equipped with a dimmer (Casambi module) and can be dimmed via smartphone or tablet.
Dimming via the normal light switch is not possible!

D Depending on the lighting product the integrated dimmer can be operated via a button or touch sensor.

Further information
about CASAMBI can
be found here:
